

FACT SHEET

UPDATED: 06.17.22

PROJECT STATUS

Street resurfacing began in May 2021 and was completed in September 2021.

City Council approved the Notice of Completion for the project on November 10, 2021.

PROJECT BUDGET

The total project cost for the FY20-21 paving program was \$2,605,000. The construction contract was awarded to Eagle Paving Company. Funding for the program is provided through TransNet Funds, SB1 (Gas Tax) and the City's General Fund.

PROJECT LOCATION

A complete list of the streets included in the FY20-21 program can be found on page 2 of this document.

FY20-21 Annual Paving Program (CS21A)

Maintaining quality transportation infrastructure for Encinitas

ABOUT THE PROJECT

Each year, the City's CIP Division uses a pavement management software to analyze Encinitas' 168 miles of maintained roadway to identify which ones are in need of resurfacing. The streets are selected based on age, condition, prior treatments, proximity to other street segments scheduled for resurfacing and greatest need. A complete list of the streets included in the FY 20-21 program is available on the following page.

Street resurfacing requires temporary lane reductions and road closures during construction. The City and its contractor works to minimize any impacts or inconvenience to the public and to maintain access to homes and businesses throughout construction. Businesses and residents on the affected streets were notified through signage, door hangers, and updates on the City website and social media channels.

The annual paving program is part of the City's ongoing commitment to maintaining quality transportation infrastructure through consistent maintenance, as outlined in the City's Strategic Plan.
